

Palencia Extended Day Program

Welcome to the best Extended Day program in St Johns County. The Palencia Elementary School Extended Day Program is designed around the children and working parents. For children, we provide an energetic environment that is safe and nurturing, and filled with a variety of structured activities that provide opportunities for learning, exercise, social development – and fun! It's like a mini-summer camp every day! Our parents can be assured that their children are properly supervised, provided with engaging and stimulating activities, and have an appropriate balance between homework, exercise, skill development, and social activities.

Children have daily activities, some of which are centered around the monthly theme. These include arts and crafts, outside play, inside games, cooking, go "green" projects, community service, and more. We will also have some of the following activities as the year progresses: Chess, STEM, Jump Rope, Pottery, Creative Writing and Computer Programing (information on these special activities will be sent out at least two weeks prior to their start date)

Along with our exciting activities, each day there is at least one Enrichment program that is available for the children in Extended Day as well as children at the School who are not a part of the Extended Day program. Enrichment programs will start the week after Labor Day. This is our tentative schedule:

- Monday: Science
- Monday and Wednesday: Spanish L.E.E Program
- Tuesday: Young Rembrandts
- Tuesday: Shinsei Karate
- Wednesday: Zumba
- Thursday: Bricks 4 Kidz
- Thursday: Cheerleading (starts in October)
- Friday: Drama
- Friday: Play Ball

All Enrichment classes start at 3 pm except on Wednesdays (early release days), when the start time is 2 pm (Enrichment Class times range from 45 minutes to 1 hour depending upon the vendor). Visit our website and click on the Programs tab more information on all of our vendors

*Registration is required for all students participating in Enrichment activities.
