

### Grade Recovery

Only tests are eligible for grade recovery. Students will only receive one opportunity for grade recovery per test.

The original test grade will be recorded with a weight of 100%. After reteaching and retesting, the grade book is adjusted to reflect the learning gains. The **original score** will be documented in the gradebook in the recovery column called **“Grade Recovery First Attempt”** with a weight of zero. The new, recovered grade will be recorded under the weighted test column. **The highest score possible for a retest is a 70%. A recovery score greater than 70% will be capped at 70%.**

Gradebook example below:

Classwork Weight: 100%	Homework Weight: 100%	TEST Weight: 100%	GRADE RECOVERY FIRST ATTEMPT Weight: 0%
		90	
		70 ----> 65	65
		80	
		100	
		70 ----> 30	30
		79
